If you are an Undergraduate/GraduateStudent, you must be a student.

But if you are UndergraduateStudent, you may not be a GraduateStudent, vice versa.

Freshman, sophomore, junior and senior are at the same level . if you are a senior, you can't not be a freshman , since you are getting old and it is not reversible.

If you are a DoctoralStudent , you must be a MasterStudent, since the DoctoralStudent is the highest accomplishment in the academia.
